

Index to Volume 48: 1982

AUTHOR INDEX

- Adkins, Debra 915
 Albers, Ann C. 37, 191
 Alexander, Holly 241
 Anderson, Geraldine L. 71, 583
 Armstrong, Pamela M. 759
 Auerbach, William 47
 Baehner, Robert L. 71
 Barros, Annamarie 183, 563
 Bartzack, Charlotte 935
 Benjamin, Colin J. 905
 Berk, Lee S. 632, 645
 Berkhoff, Herman A. 609
 Beyerl, Darilyne 355
 Bloom, Karen B. 759
 Boaz, William 189
 Bokkenheuser, V.D. 197
 Bowling, Susan A. 25
 Brake, S.R. 43
 Braylan, Raul C. 685
 Broski, David C. 207
 Bulgria, Lyle L. 417
 Burson, Jeanne 573
 Butts, William C. 587
 Cairo, Mitchell S. 71
 Carson, Freida 299
 Carter, Sandra J. 49
 Cassidy, Paul A. 605
 Catchings, Bettie 935
 Chase, William H. 605
 Chesler, Ruth 595
 Cobb, Michael 671
 Connelly, Mary R. 609
 Cudney, Natalie J. C. 37
 Cummings, Elizabeth 535
 Davis, Brenta 158
 Day, Carmel Marti 139, 560
 Deaton, Carl 657
 DeNofa, Joanne R. 218
 de la Maza, Luis M. 247
 Del Polito, Gene A. 201
 Dickinson, Judith 563
 Donald, Mary K. 915
 Downing, Steven M. 1005
 Doyle, Virna R. 135
 Duckworth, John K. 135
 Durfee, Karen 525
 Eby, William C. 645
 Ellis, Sandra S. 679
 Ens, Gordon E. 119
 Fairbanks, Tod 79, 299, 418
 Faileur, David M. 757
 Ferguson, Robert P. 617
 Findley, P. Scott 949
 Flanagan, Susan M. 375
 Fredricks, Metrodora 603
 Gabel, Robert L. 617
 Gamard, Judith R. 807
 Gardner, Sherry Becker 417
 Gardner, William A. 65
 Ginzberg, Eli 279
 Gonzales, Lawrence 909
 Gotcher, Signe 671
 Grimes, Bill 185
 Gross, Estelle 551, 625, 961
 Gutmann, David H. 361
 Guy, L. Ruth 878
 Gwyther, Robert E. 697
 Hamoudi, Ayser C. 813
 Hansen, Jessie L. 148
 Hansen, Leland G. 539
 Hardwick, David F. 605
 Harty-Golder, Barbara 685
 Harwell, George A. 791
 Henderson, Sara 65
 Hinds, Irwin L. 909
 Holmes, Beulah 71
 Howard, Barbara 935
 Hubbard, Paul 839
 Hudson, Cindy 583
 Hurry, Edna 971
 Hurst, Sarah 148
 Hutchens, Lorell 212
 Ikeda, Glenn 145
 Ingersoll, Ruth 962
 Irwin-Jones, Gail 715
 Ivancevich, John M. 163, 169
 James, Karen 735
 Jeffers, David 80
 Johnson, Deborah L. 689
 Karni, Karen R. 49
 Karr, Cynthia K. 381, 547, 621, 709
 Karselis, Terence C. 329
 Kaspar, Janet A. 601
 Kelleher, James J. 271
 Kerns, Dennis L. 131
 Kiehn, Wendy 715
 Kirkman-Liff, Bradford L. 697
 Koornhof, H.J. 197
 Lam, Dennis E. 943
 Lam, Rebecca W. 943
 Larsen, Arden E. 367
 Lawrence, Louana W. 203
 Leclair, Susan J. 47
 Lehmann, Craig 833
 Leiken, Alan M. 833
 Leubbert, Peggy P. 691
 Lilje, Diana J. 587
 Lint, Thomas F. 743
 Lockett, Linda J. 609
 Longberry, Joan 99
 Luskin, Allan T. 749
 Lyman, Beverly A. 722
 Lyons, Lynne H. 923
 Maestri, Elizabeth J. 371
 Mann, Joseph D. 1005
 Mann, Julia 80
 Manuselis, George 207
 Marcus, David L. 85
 Marsik, F.J. 43
 Mase, Darrel J. 1011
 Matteson, Michael T. 163, 169
 Matuscak, Rosemarie R. 191
 McCarthy, L. R. 613
 Melnik, Judith 543
 Meyer, Mary Alice 152
 Miller, Sharon M. 625, 1017
 Molthan, L. 997
 Monroe, Linda 663
 Morello, Josephine A. 233
 Morrison, J. Ian 605
 Moss, D.B. 796
 Murphy, Kathleen 271
 Nassir, Ellean 551

 Witte, Amy Martinkovic 703
 Wu, Teresa C. 617
 Zufall, Dorothy 79

SUBJECT INDEX

Activated partial thromboplastin time (APTT)
Hemostasis: Part I. Screening tests to evaluate abnormal hemostasis, 99

Alcaptonuria
Urinalysis problem, 375

Alloantibodies
Anti-Rg^a: Identifying serologic characteristics, 997

Alpha naphthyl acetate esterase activity
Identification of T lymphocytes by a histochemical stain for alpha naphthyl acetate esterase activity, 367

American Society for Medical Technology
see *Society issues*

Amino acid metabolic defect
Two cases of cystinosis, 703

Amylase determination
Serum-plasma separator in amylase assay, 759

Anaerobic bacteria
see *Microbiology*

Antibody-coated bacteria
Detection of antibody-coated bacteria in urine sediments: A review, 191

Anti-LW
Immunohematology problem, 535

Anti-Rodgers (Rg^a)
Anti-Rg^a: Identifying serologic characteristics, 997

Artifacts
Artifactual alterations in phagocytes in the blood smear, 507

ASMT
see *Society issues*

ASMT Annual Meeting
Abstracts of papers to be presented at the ASMT 50th anniversary meeting, 387
ASMT annual meeting & exhibit 1982 exhibitors' product list, 439
ASMT 50th anniversary meeting preliminary program, 289

ASMT E & R Fund, Inc.
ASMT Education & Research Fund, Inc. honors, research grants, scholarships, 1982-83, 867
1981-82 annual report—ASMT Education & Research Fund, Inc., 954

Autoantibody absorption
Absorption of warm autoantibodies using glutaraldehyde-treated human red cells, 679

Automation
see also *Instrumentation*
Evaluation of an automated radioimmunoassay system: The ARIA II, 65
Radioligand assay: Current trends in automation, 663

Using the proposed NCCLS protocol for evaluation of automated instruments, 595

Bilirubin
Effects of breast feeding and duration of labor on bilirubin levels in the newborn, 131

Bleeding time
Hemostasis: Part I. Screening tests to evaluate abnormal hemostasis, 99

Blood cultures
Comparison of Micro-ID, a modified Minitex system, and conventional methods for four-hour identification of *Enterobacteriaceae* directly from blood cultures, 769

Blood gases
Blood gases and electrolytes: Looking to the future (editorial), 310
Controlling the quality of blood gas results, 347
Non-invasive measurement of blood oxygen levels, 355
A personal experience of "standardization" of pH and blood gases by committees, 343

Books reviewed
Atlas of Human Histology, ed 5, 417
Basic Laboratory Skills for Laboratory Assistants, 148
Blood Atlas and Sourcebook of Hematology, 715
Clinical Hematology, ed 8, 962
Color Atlas of Clinical Parasitology, 625
Concise Text of Histology, 299
Enzyme-Immunoassay, 212
The Flavobacterium-Cytophaga Group, 715
Free-Living Amebas in Human Infections, 961
Gradwohl's Clinical Laboratory Methods and Diagnosis, ed 8, 79
Handbook of Electrophoresis (Volume I)
Lipoproteins: Basic Principles and Concepts, 417
Handbook of Fine Needle Aspiration Biopsy
Cytology, 551
HLA Without Tears, 625
Introduction to Blood Banking, ed 3, 80
Introduction to Computer and Information Processing, 796
Laboratory Diagnosis and Patient Monitoring: Clinical Chemistry, 626
Laboratory Safety—Theory and Practice, 796
Legal Guidelines for the Clinical Laboratory, 79
Medical Parasitology, ed 5, 551
Medical Technology Review, 715
Pediatric Clinical Chemistry, ed 2, 148
Practical Blood Transfusion, ed 3, 417
Practical Immunology, ed 2, 79
Principles and Practice of Blood Gas Analysis, 212
Principles of Immunological Diagnosis in

Medicine, 299
Quality Control and Data Analysis in Binder-Ligand Assay, 961
Rapid Virus Diagnosis: Application of Immunofluorescence, ed 2, 962
Techniques in Clinical Immunology, ed 2, 418
Toxic Metals and Their Analysis, 299

Bylaws
Articles of incorporation, bylaws, and regulations of the American Society for Medical Technology, 843

Campylobacter fetus ss. jejuni
Primary isolation of *Campylobacter fetus* subspecies *jejuni*, 197

Cardiac enzymes
Subendocardial myocardial infarction, 265

Cerebrospinal fluid
Cytology of cerebrospinal fluid, 829
The quantitation and fractionation of proteins in cerebrospinal fluid, 821
Rapid diagnostic techniques for bacterial meningitis, 813

Certification exam scores
The effect of academic preparation on medical technologists' registry examination performance, 1005

Chemistry
Case study: Drug-induced electrolyte changes, 339
Clinical chemistry mini-course—Unit one: Organ-specific profiling, 791
Clinical chemistry mini-course—Unit two: Statistical analysis, 807
Clinical chemistry mini-course—Unit three: Therapeutic drug monitoring, 949
Clinical chemistry mini-course—Unit four: Vitamin actions and assays, 1017
Controlling the quality of blood gas results, 347
Early pregnancy testing: A comparison of hemagglutination inhibition and radioreceptor assay, 145
Electrolyte instrumentation: Then and now, 329
Evaluation of an automated radioimmunoassay system: The ARIA II, 65
Fluorescence immunoassay in the clinical laboratory, 671
Immunoassays: A roadmap for the 1980s, 645
The importance of microscopic examination of the urinary sediment, 141
Influence of selective vs. panel chemistry tests on cost and diagnostic time, 833
Light scattering and its application for the clinical laboratory, 657
Monoclonal antibodies: Expanded potential for labeled antibody ligand assays, 651

- Non-invasive measurement of blood oxygen levels, 355
- A personal experience of "standardization" of pH and blood gases by committees, 343
- The quantitation and fractionation of proteins in cerebrospinal fluid, 821
- Two cases of cystinosis, 703
- Urinalysis problem, 375
- Variance in capillary and venous glucose levels during a glucose tolerance test, 543
- Chlamydia trachomatis**
Chlamydia trachomatis: A genital pathogen worth recognizing, 247
- Chronic granulomatous disease**
 Chronic granulomatous disease, 71
- Clinical correlations**
 Chronic granulomatous disease, 71
 Subendocardial myocardial infarction, 265
- Clostridium difficile**
 Colitis caused by *Clostridium difficile*: A review, 927
- CMU program**
 Report of the topic study group on graduate education in medical technology, 935
- Coagulation**
 see also Hemostasis
 Hemostasis mini-course—Unit One: The mechanism of blood coagulation, 31
- Coagulation factors**
 Hemostasis: Part II. Investigation of the coagulation factors by use of qualitative and quantitative assay techniques, 109
- Colitis**
 Colitis caused by *Clostridium difficile*: A review, 927
- Complement**
 Alterations of complement components in disease, 749
 Complement: Activation, consequences, and control, 735
 Laboratory detection of complement activation and complement deficiencies, 743
- Computers**
 Computer technology: A reality in today's laboratories, 567
 Education at your fingertips, 573
 Personal experiences with personal computers, 583
- Continuing education**
 see Education
- Cost-effectiveness**
 Evaluation of an automated radioimmunoassay system, The ARIA 11, 65
 Influence of selective vs. panel chemistry tests on cost and diagnostic time, 833
 Structuring complexity of testing: A process oriented approach to limiting unnecessary laboratory use, 605
- Creatinine kinase (CK)**
 Subendocardial myocardial infarction, 265
- Cystic fibrosis**
 Case study: Cystic fibrosis, 25
 Erythrocyte indices in cystic fibrosis, 539
- Cystinosis**
 Two cases of cystinosis, 703
- Cytology**
 Cytology of cerebrospinal fluid, 829
- Defibrillation syndrome**
 Hematology problem, 757
- Economic security**
 An allied health perspective on competition, 201
 Alternative approaches to economic security for laboratory professionals: I. The professional society, 185
 Alternative approaches to economic security: II. The union, 187
- Alternative approaches to economic security: III. Effective management, 188
- Introduction: The ASMT personal relations committee—1981-82, 183
- The law governing employer-employee relations, 184
- Editorial**
 ASMT membership: The intangible benefits, 84
 Assuring quality personnel, 2
 Blood gases and electrolytes: Looking to the future, 310
 Building our future ourselves, 224
 Dealing with the root causes of stress in the laboratory, 158
 Golden opportunities, 424
 Nuclear medicine/RIA in transition to ligand immunoassay, 632
 Personalization of health care: How much is enough? 722
 Who will speak for us? 558
- Education**
 Another approach to the case study, 923
 A comparative study of job satisfaction in medical technology, 205
 Continuing education for medical laboratory personnel: The telephone conference approach, 691
 Development of a curriculum for the preparation of phlebotomists, 915
 Education at your fingertips, 573
 The effect of academic preparation on medical technologists' registry examination performance, 1005
 Legal aspects of medical technology: Education and clinical practice, 973
 Report of the topic study group on graduate education in medical technology, 935
- Electrolytes**
 Blood gases and electrolytes: Looking to the future (editorial), 310
 Case study: Drug-induced electrolyte changes, 339
 Electrolyte instrumentation: Then and now, 329
- Erythrocytes**
 Erythrocyte indices in cystic fibrosis, 539
 Peripheral blood findings associated with asymptomatic lead exposure, 139
- Exhibitors' product list**
 See ASMT Annual Meeting
- Feature**
 Determining priorities of the Georgia Student Society for Medical Technology: Results of a survey, 943
 Laboratory testing in the offices of family physicians, 697
 Myths of aging, 1011
 Safety in the clinical laboratory, 61
- Fibrinolytic system**
 Hemostasis mini-course—Unit three: The fibrinolytic system, 213
- Fluorescence immunoassay**
 see Immunoassay
- Folate**
 Hematology-microbiology problem, 203
- Free bilirubin**
 Four clinical chemistry analyses for pediatric patients: Glycosylated hemoglobin, free bilirubin, sweat electrolytes, neonatal thyroxine, 15
- Future, laboratory**
 Blood gases and electrolytes: Looking to the future (editorial), 310
 Focus on the future, 277
 The laboratory environment: 1990-2000, 282
 The 1980s—What looms ahead, 279
- Genital infections**
 The changing state of genital infections, 229
Chlamydia trachomatis: A genital pathogen worth recognizing, 247
Herpes simplex virus: A cause for concern, 241
Neisseria gonorrhoeae: Methods for laboratory identification, 233
- Geriatrics**
 Myths of aging, 1011
- Glomerular basement membrane**
 A methenamine-silver staining technique for glomerular basement membranes in plastic-embedded renal tissue, 909
- Glucose tolerance test**
 Variance in capillary and venous glucose levels during a glucose tolerance test, 543
- Glutaraldehyde fixation**
 Absorption of warm autoantibodies using glutaraldehyde-treated human red cells, 679
- Glycosylated hemoglobin**
 Four clinical chemistry analyses for pediatric patients: Glycosylated hemoglobin, free bilirubin, sweat electrolytes, neonatal thyroxine, 15
- Graduate education**
 Report of the topic study group on graduate education in medical technology, 935
- Gram stain**
 Use of Gram stain to predict vitreous fluid infection, 525
- Granulocytes**
 see Leukocytes
- Haemophilus influenzae**
 Pneumonia caused by *Haemophilus influenzae* serotype E, 617
- Hemagglutination**
 Early pregnancy testing: A comparison of hemagglutination inhibition and radioreceptor assay, 145
- Hematologic morphology**
 Artifactual alterations in phagocytes in the blood smear, 507
 An historical review of toxic and reactive morphologic alterations in granulocytes and monocytes, 491
 Reactive morphology in blood phagocytes: Introduction, 485
 The Romanowsky stains: A review, 519
- Hematology**
 Artifactual alterations in phagocytes in the blood smear, 507
 Correlation of leukocyte esterase detection and the presence of leukocytes in body fluids, 135
 Development of a curriculum for the preparation of phlebotomists, 915
 Effects of breast feeding and duration of labor on bilirubin levels in the newborn, 131
 Erythrocyte indices in cystic fibrosis, 539
 Hematology problem, 47, 371, 377, 601, 603, 689, 757, 995
 Hematology-microbiology problem, 203
 An historical review of toxic and reactive morphologic alterations in granulocytes and monocytes, 491
 An improved micromethod for evaluating the phagocytic potential of granulocytes by the nitroblue tetrazolium (NBT) slide test, 271
 Lymphomas and their expression in peripheral blood, 685
 Reactive morphology in blood phagocytes: Introduction, 485
 The Romanowsky stains: A review, 519
 The use of restriction endonucleases in the prenatal diagnosis of hemoglobinopathies, 361
- Hemoglobinopathies**
 The use of restriction endonucleases in the prenatal diagnosis of hemoglobinopathies, 361

Hemostasis

- Hemostasis mini-course—Unit one: The mechanism of blood coagulation, 31
- Hemostasis mini-course—Unit two: Platelets: Functional physiology and related disorders, 93
- Hemostasis mini-course—Unit three: The fibrinolytic system, 213
- Hemostasis mini-course—Unit four: Hemostasis: Thrombosis, 257
- Hemostasis: Part I. Screening tests to evaluate abnormal hemostasis, 99
- Hemostasis: Part II. Investigation of the coagulation factors by use of qualitative and quantitative assay techniques, 109
- Hemostasis: Part III. Platelet function testing and hereditary and acquired disorders of platelet function, 119

Herpes simplex virus

- Herpes simplex virus: A cause for concern, 241

Histology

- Histological staining for the diagnosis of mesothelioma, 905
- A methenamine-silver staining technique for glomerular basement membranes in plastic-embedded renal tissue, 909
- Rapid histological staining procedures for material from immune-suppressed patients, 893

Historical bits

- The crossmatch: Is it here to stay?, 878
- Development of administrative roles for medical technologists, 727
- The (good) old days of urinalysis, 560
- Historical evolution of tests for thyroid disease, 891
- A laboratorian's view of pregnancy testing, 971
- Laboratory medicine—Then and now, 427
- "Romanovsky" stains: A tincture of magic, 640

Homogenetic acid

- Urinalysis problem, 375

Immunoassay

- see also *Radioimmunoassay*
- Fluorescence immunoassay in the clinical laboratory, 671
- Immunoassays: A roadmap for the 1980s, 645
- Light scattering and its application for the clinical laboratory, 657
- Monoclonal antibodies: Expanded potential for labeled antibody ligand assays, 651

Immunohematology

- Absorption of warm autoantibodies using glutaraldehyde-treated human red cells, 679
- Anti-Rg^a: Identifying serologic characteristics, 997
- The crossmatch: Is it here to stay?, 878
- Immunohematology problem, 535

Immunology

- Alterations of complement components in disease, 749
- Complement: Activation, consequences, and control, 735
- Identification of T lymphocytes by a histochemical stain for alpha naphthyl acetate esterase activity, 367
- Immunology mini-course—Unit one: Methodology, 381
- Immunology mini-course—Unit two: Components of an immune response, 547
- Immunology mini-course—Unit three: Function and alteration of immune responses, 621
- Immunology mini-course—Unit four: Interpretation and clinical correlation, 709
- Laboratory detection of complement activation and complement deficiencies, 743

Instrumentation

- see also *Automation*
- Electrolyte instrumentation: Then and now, 329

- Fluorescence immunoassay in the clinical laboratory, 671
- Immunoassays: A roadmap for the 1980s, 645
- Light scattering and its application for the clinical laboratory, 657
- Non-invasive measurement of blood oxygen levels, 355
- A personal experience of "standardization" of pH and blood gases by committees, 343
- Radioligand assay: current trends in automation, 663
- Titrimetric and gravimetric calibration of pipettors: A survey, 763
- Using the proposed NCCLS protocol for evaluation of automated instruments, 595

Ion selective electrodes

- Electrolyte instrumentation: Then and now, 329

Job turnover

- A study of job turnover among clinical laboratory personnel, 49

Laboratory careers

- Ellen Steel's non-traditional career in clinical laboratory science, 50

Laboratory computers

Mini-course

Clinical chemistry mini-course, 791, 807, 949, 1017

Hemostasis mini-course, 31, 93, 213, 257

Immunology mini-course, 381, 547, 621, 709

Mite contamination

Mycology problem, 1003

Monoclonal antibodies

Monoclonal antibodies: Expanded potential for labeled antibody ligand assays, 651

Monocytes

see *Leukocytes*

Mucopolysaccharide stains

Histological staining for the diagnosis of mesothelioma, 905

Mycology culture contamination

Mycology problem, 1003

NCCLS

Using the proposed NCCLS protocol for evaluation of automated instruments, 595

Neisseria gonorrhoeae

Comparison of a rapid micromedia method to cystine trypticase agar (CTA) and fluorescent methods for the identification of pathogenic *Neisseria*, 43

Neisseria gonorrhoeae: Methods for laboratory identification, 233

Neisseria meningitidis

Comparison of a rapid micromedia method to cystine trypticase agar (CTA) and fluorescent methods for the identification of pathogenic *Neisseria*, 43

Neonatal thyroxine

Four clinical chemistry analyses for pediatric patients: Glycosylated hemoglobin, free bilirubin, sweat electrolytes, neonatal thyroxine, 15

Nephelometry

see *Immunoassay*

Nitroblue tetrazolium slide test

An improved micromethod for evaluating the phagocytic potential of granulocytes by the nitroblue tetrazolium (NBT) slide test, 271

Organ profiling

Clinical chemistry mini-course—Unit one: Organ-specific profiling, 791

Pediatric patients

Case study: Cystic fibrosis, 25

Considerations for the clinical laboratory serving the pediatric patients, 7

Four clinical chemistry analyses for pediatric patients: Glycosylated hemoglobin, free bilirubin, sweat electrolytes, neonatal thyroxine, 15

Personnel, laboratory

see *Laboratory personnel*

pH

see *Blood gases*

Phlebotomy

Development of a curriculum for the preparation of phlebotomists, 915

Pipet calibration

Titrimetric and gravimetric calibration of pipettors: A survey, 763

Plasmodium malariae

Hematology problem, 995

Platelets

Hematology problem, 689

Hemostasis mini-course—Unit two: Platelets:

Functional physiology and related disorders, 93

Hemostasis: Part I. Screening tests to evaluate abnormal hemostasis, 99

Hemostasis: Part II. Investigation of the coagulation factors by use of qualitative and quantitative assay techniques, 109

Hemostasis: Part III. Platelet function testing and hereditary and acquired disorders of platelet function, 119

Polycythemia vera

Hematology problem, 47

Potassium

see *Electrolytes*

Pregnancy testing

Early pregnancy testing: A comparison of hemagglutination inhibition and radioreceptor assay, 145

A laboratorian's view of pregnancy testing, 971

Preview of new products

ASMT preview of new products, 775

Private laboratories

Laboratory testing in the offices of family physicians, 697

Product review

BioZorb™ A new way to deal with laboratory spills, 85

Protein quantitation and fractionation

The quantitation and fractionation of proteins in cerebrospinal fluid, 821

Prothrombin time (PT)

Hemostasis: Part I. Screening tests to evaluate abnormal hemostasis, 99

Protothecosis

Differential microbiological diagnosis of protothecosis from non-human sources, 609

Protozoa

The trichrome-stained smear as a screening method for intestinal parasites: Evaluation in a San Francisco Bay Area population, 531

Quality assurance

Assuring quality personnel (editorial), 2

Quality control

Clinically significant reference intervals, 587

Controlling the quality of blood gas results, 347

Titrimetric and gravimetric calibration of pipettors: A survey, 763

Radiolimmunoassay

see also *Immunoassay* and *Radioreceptor assay*

Evaluation of an automated radioimmunoassay system: The ARIA II, 65

Monoclonal antibodies: Expanded potential for labeled antibody ligand assays, 651

Radioligand assay: Current trends in automation, 663

Radiolimmunoassay, see *Radiolimmunoassay*

Radioreceptor assay

Early pregnancy testing: A comparison of hemagglutination inhibition and radioreceptor assay, 145

Rapid staining procedures

Rapid histological staining procedures for material from immune-suppressed patients, 893

Red blood cell

see *Erythrocyte*

Reference intervals

Clinically significant reference intervals, 587

Restriction endonucleases

The use of restriction endonucleases in the prenatal diagnosis of hemoglobinopathies, 361

Romanowsky stain

Artifactual alterations in phagocytes in the blood smear, 507

An historical review of toxic and reactive morphologic alterations in granulocytes and monocytes, 491

Reactive morphology in blood phagocytes:

Introduction, 485

"Romanowsky" stains: A tincture of magic, 640

The Romanowsky stains: A review, 519

Serum-plasma separator

Serum-plasma separator in amylase assay, 759

Szary syndrome

Hematology problem, 371

Sickle cell anemia

The use of restriction endonucleases in the prenatal diagnosis of hemoglobinopathies, 361

Society issues

An allied health perspective on competition, 201

Alternative approaches to economic security for laboratory professionals: I. The professional society, 185

Articles of incorporation, bylaws, and regulations of the American Society for Medical Technology, 843

ASMT annual report, 839

ASMT Education & Research Fund, Inc. honors, research grants, scholarships, 1982-83, 867

ASMT membership: The intangible benefits (editorial), 84

Building our future ourselves (editorial), 224

Golden opportunities (editorial), 424

Introduction: The ASMT personnel relations committee—1981-82, 183

Nuclear medicine/RIA in transition to ligand immunoassay, 632

Who will speak for us? (editorial), 558

Sodium

see *Electrolytes*

Splenic dysfunction

Hematology problem, 377

Statistical analysis

Clinical chemistry mini-course—Unit two: Statistical analysis, 807

Streptococci, Group G

Group G streptococci: A review of the literature, 37

Stress

Dealing with the effects of work-related stress, 177

Dealing with the root causes of stress in the laboratory (editorial), 158

Stress and the medical technologist: I. A general overview, 163

Stress and the medical technologist: II. Sources and coping mechanisms, 169

Student priorities

Determining priorities of the Georgia Student Society for Medical Technology: Results of a survey, 943

Subendocardial myocardial infarction

Subendocardial myocardial infarction, 265

Sweat electrolytes

Case study: Cystic fibrosis, 25

Four clinical chemistry analyses for pediatric patients: Glycosylated hemoglobin, free bilirubin, sweat electrolytes, neonatal thyroxine, 15

Teaching aids

Another approach to the case study, 923

Technical notes

Another approach to the case study, 923

Influence of selective vs. panel chemistry tests on cost and diagnostic time, 833

Peripheral blood findings associated with asymptomatic lead exposure, 139

Serum-plasma separator in amylase assay, 759

Variance in capillary and venous glucose levels during a glucose tolerance test, 543
